

Custom Labels - 4-Color Process, Tamper Evident, Piggyback & More!

When it comes to customized labels, RACO does it all. We offer custom configurations, core sizes, materials, inks, varnishes, multi-laminates and adhesives to satisfy your needs. Our flexo presses can handle up to 12 colors in one pass with web widths up to 11 1/2" and 4-color process with web widths up to 20". For short runs, our 4-color process digital presses offer the ability to print opaque white ink and black variable print with precise laser cutting.

If you need harsh environment, asset control, or warehouse management labels, our thermal transfer press offers up to 4 ribbon colors and prints on almost any material. RACO can help you with patterned adhesives, two-sided printing, multiple SKUs and how to prepare your label for hand inserting or automated inserting equipment. We can take your idea from start to finish, providing a quality label with the most cost effective design.
